SUMMARY

Analytical problem solver with a strong knowledge of math & working with numbers. I love developing programs that use algorithms to solve problems. I excel in working as a team as well as individually. I take great pride in each project I am tasked with as I have won numerous awards because of exceeding expectations including Employee of the Quarter. I complete all tasks efficiently & effectively.

TECHNICAL SKILLS

- C#/.NET Framework
- HTML/CSS
- Javascript
- jQuery
- ASP.NET MVC
- SQL

EDUCATION AND TRAINING

C#/.NET Certification   **2018**
Tech Elevator – Cincinnati, OH
14 week coding bootcamp in which I completed the C#/.NET program. Emphasis on C#, .NET, database programming, server and client side web application programming and web application security.

Electrical Engineering   **2009 - 2012**
University of Cincinnati – Cincinnati, OH
Completed Calculus I to Calculus IV as well as Differential Equations and Physics I to Physics III.

TECHNICAL EXPERIENCE

- **Vending Machine Software** - Developed a CLI program for a vending machine in C# using polymorphism, inheritance, encapsulation, file I/O and unit testing.
- **National Parks Database** - Developed a program using SQL Server and C# to build, manipulate and retrieve data from a database
- **Knight's Tour Game** - Developed a game in C# in which a user tries to touch each square on a chess board with a single knight. I wrote an algorithm to show the best possible move. If it is followed, the Knight's Tour will be achieved.
- **National Parks Info Web App** – Used ASP.NET MVC 5 to develop a web app that utilizes Razor, C# and SQL to retrieve & manipulate data from a database to display a view to the client.
- **Sorting App** – Taught myself Bubble, Selection & Quick sort to further practice using ASP.NET MVC 5 to display a visual representation of each pass through for the three sorting algorithms.
